- Early Fire Hazard Test (tested to AS1530)
- Sandbag Impact Test (tested to AS1562-3)
- Rated for cyclonic winds (tested to AS4040.3)

SOLARSMART® Premium Heat Reduction Sheeting

SolarSmart Premium Sheeting

SolarSmart reflects more heat across the entire ultraviolet light spectrum, not just the portion that provides visible light. "Near infra-red" radiation from the sun is invisible to our eyes but contains large amounts of heat that we feel on our skin. SolarSmart is unique in its ability to block out "near infra red" heat radiation. Hold up a sample to the sun or to an ultraviolet lamp and you will feel the SolarSmart difference.

- Proven over 25 years in Australia
- Minimal glare
- High quality
- Natural diffused light
- Offers year round protection
- Natural colour range providing natural light
- Unique embossed finish
- Lifetime Warranty
